

A WORD ABOUT KAYPRO

Kaypro Corporation's evolution began under the name Non-Linear Systems, Inc., organized in 1953. The company developed the first digital voltmeter and quickly established itself as a leader in the field of electronic test equipment. NLS has been a major supplier of digital voltmeters and ratiometers to large corporations in the aerospace industry.

In 1972, NLS decided to concentrate its efforts on small, consumer-oriented, electronic testing devices. They set up a worldwide network of distributors to provide portable multi-meters, oscilloscopes, counters, frequency meters, temperature meters, and digital panel meters.

Now — NLS has used that 30 years of experience to enter the world of computers. The prime thought has been to provide the small business and the family with the best value in a microcomputer.

KAYPRO computers have been engineered to exceed the standards we have developed in order to meet the needs of present-day technology.

If you have any questions regarding KAYPRO Computers, call (800) 447-4700 toll free in the Continental United States for the name of your local KAYPRO dealer. In Europe, contact KAYPRO EUROPE at (4402) 71248. Telex: 56026

- MICROPLAN™ — An upgrade of PROFITPLAN™ specializing in financial analysis
- CONSOLIDATION MODULE™ — A MICROPLAN™ enhancement for merging individual spreadsheets
- dBASE II™ — A relational database management system
- SUPRTERM™ — For transmitting and receiving data

via a modem

- S-BASIC™ — A structured basic language for programming
- B-TREES™ — A programmer's file indexing system written in S-BASIC™
- C-BASIC™ — A basic high level language for programming
- TINKERKIT — BIOS ROM and utility source listings
- Many other CP/M™-based software packages are available through your local Kaypro dealer or software library

DUAL FLOPPY DISK DRIVES:

Two 5¼" floppy disk drives — double density standard.

INPUT / OUTPUT CONNECTIONS:

- RS-232C modem interface
- Parallel printer interface

SCREEN:

9", 80-column × 24-row screen. Green phosphor characters.

BRIGHTNESS CONTROL:

Controls brightness of screen for operator convenience.

CPU: Z-80

RAM: 64k Bytes

DISK STORAGE:

Two 5¼" floppy disk drives each provide 200,000 characters of storage.

PACKAGING:

Portable, self-contained, low-profile metal case with carrying handle and detachable keyboard.

OPTIONS:

- Weatherproof, vinyl carrying case
- Padded, nylon carrying case

KEYBOARD:

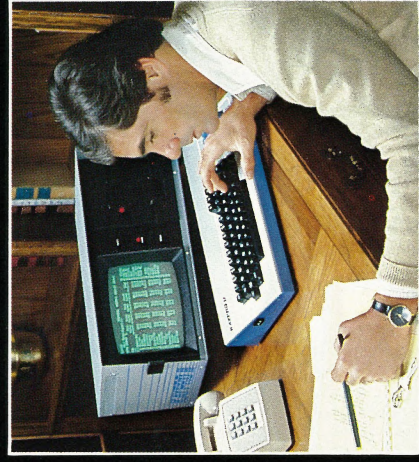

Stylized typewriter keyboard with delete and cursor keys, plus a 14-key, calculator-type numeric pad for rapid data entry.

KAYPRO II
ANYTIME.
ANYWHERE.

KAYPRO II

Six Steps to Computer Power.

1 PROFOUNDLY PORTABLE.

All the functions you need are in a single compact package, easily portable at 26 pounds, in its own rugged, low profile carrying case. The durable KAYPRO™ II is ready to go when and where you are... all you have to do is plug your KAYPRO II into any standard grounded outlet. There are no tricky hook-ups or complicated power requirements — just instant computing power when you need it.

2 ABSOLUTELY AFFORDABLE.

The KAYPRO system, with its complete software package included, provides everything you need to begin applying computer speed and efficiency to all your daily tasks and projects today. During business hours, your KAYPRO II performs at full stride. Bookkeeping, accounting and inventory tasks are no longer tedious. Purchasing and engineering functions are made with greater accuracy and less delay, while production control of manpower and materials is optimized.

Marketing analysis, sales performances, commissions, schedules and sales forecasts are accomplished with greater speed and accuracy. Order processing and shipping documents are performed efficiently. You are now able to be more productive to spend more time in creative thought for the future of your home and business.

3 9" MONSTER MONITOR.

Save your eyes! The large 9" diagonal monitor that is standard built-in equipment in your KAYPRO II virtually eliminates the need for an external monitor. You will immediately feel at ease with the KAYPRO II. The green phosphor characters and the 80-column by 24-row display adds up to one thing — comfortable viewing. As you can see, the KAYPRO II is a complete computer in itself — no extras needed.

4 BIG BOARD KEYBOARD.

The next thing you will notice is the professional keyboard. The keys are sculptured for your handling convenience and the numeric pad includes 14 keys with its own return. There are dedicated cursor control keys to give quick access to any part of your displayed data or text. You will never want to use another keyboard again. With the KAYPRO II, you get a keypad that is normally found only on high-quality word-processing equipment costing thousands more. We know that the smart businessman of today is looking for more at a lower price and we provide that in the KAYPRO II.

5 SENSATIONAL SOFTWARE.

A FREE package of powerful software rounds out this value-packed system. Each KAYPRO II includes TWO of the most versatile word processing programs available — WORDSTAR™, the acknowledged industry leader and PERFECT WRITER™, one of the most advanced, technologically innovative programs of its type. PERFECT WRITER™ is part of an integrated system of programs which includes PERFECT SPELLER™, a 50,000-word spelling checker; PERFECT FILER™, a filing system to organize mailing lists and generate form letters; and PERFECT CALC™, an electronic spreadsheet. Also, each of the TWO word processors may be supplemented with THE WORD PLUS™, a comprehensive spelling and dictionary program.

The KAYPRO II also features the PROFITPLAN™ spreadsheet, a computerized ledger sheet ideal for sales projections, cost analysis or tax calculations. In fact, almost any statistical or financial analysis that involves manipulating columns of numbers is a cinch with PROFITPLAN™.

For those interested in learning how to write their own software, every KAYPRO II comes with MICROSOFT BASIC™, the most widely used BASIC programming language for personal computers.

The KAYPRO II is supplied with the CPM 2.2™ operating system, providing access to literally thousands of commercially available software packages. Also, UNIFORM™, another standard program, allows your KAYPRO II to utilize disks from other popular computers.

Finally, don't think the KAYPRO II is all work and no play. A dozen challenging computer games come with every KAYPRO II — the grand finale to one of the most extensive software packages ever offered at no charge.

6 POWERFUL PROCESSOR.

The core of the KAYPRO II is a ZILOG Z-80™ micro-processor. What this means to you is that your KAYPRO II can process letters, customer lists, inventory reports or tabulate immense engineering or ordering calculations with speed and ease. Paperwork that took hours of time and supervision before are now executed for you in seconds. Whether used as a calculator, word processor, or a scientific research tool, the KAYPRO II will get the job done.
